

DC Disconnectors

YOUR #1 CHOICE FOR BoS SOLUTIONS

Sibert has a wide range of BoS products available for the PV Installation market including a range of European-manufactured, high-quality, designed-for-purpose DC Disconnectors.

Unlike some other products used to isolate DC voltages and currents, these products will ALWAYS connect/disconnect within no greater than 5ms by virtue of a unique operator-independent trigger ratchet switching mechanism.

- 2 or 4-pole configuration
- <5ms switching time
- Knife-edge, high-quality, self-cleaning contacts
- Long arc cooling chambers
- 4-pole version can be used to isolate 2 separate strings (no jumper wires/bars required)
- Variety of handle and mounting options
- IP65 enclosures
- IEC 60364-7-712, VDE 0660
