

## Solar Irradiance Meter

**YOUR #1 CHOICE FOR BoS SOLUTIONS**

Sibert has a wide range of BoS products available for the PV Installation market including this high-quality, multi-functional Solar Irradiance meter.

An SI Meter is an essential device when commissioning a Solar PV system and also to help in determining the optimum angle of inclination for a solar panel. Simply point the device at the sun and the level of irradiance (in  $W/m^2$  or BTU) is displayed on the LCD display.

- 3½ digit LCD display
- End-mount sensor
- Select either power or transmission
- Select either  $W/m^2$  or BTU/(FT<sup>2</sup>\*h)
- Data Hold/Min/Max function
- Sampling time - 0.25seconds
- 130mm x 55mm x 39mm
- ~150g weight
- Comes with soft carry pouch and battery
