

Santon Compact AC Isolators

YOUR #1 CHOICE FOR BoS SOLUTIONS

As part of Sibert Solar's ongoing expansion of product offerings to the Solar installation market, Sibert is pleased to be able to support a new, compact and cost-effective AC isolator from Santon Controls.

The **M25.2** unit is a 2-pole isolator enclosed in an IP65 housing with top and bottom threaded knock-outs (M20) and has a compact foot-print of just 89mm square.

- 25A 240/440V AC22
- Rotary handle lockable in off position
- M20 threaded knock-outs top and bottom
- 89mm x 89mm x 100mm dimensions
